

## Development Application Checklist

### Essential information for all applications

The city is seeking to improve the effectiveness and efficiency of its Planning Approvals Process. It has found that one of the major contributing factors to delays in assessing planning applications is that the application is incomplete when originally lodged. In an attempt to make this process as user friendly as possible, the City of Subiaco asks that you read the following information and complete the checklist to ensure ALL requirements have been met before the application is lodged. Please note that incomplete applications may not be accepted and may be returned to the applicant until such a time as all the details are provided.
